

EMO Hannover

18.09.2023 - 23.09.2023 | Germany, Hannover

The world of metalworking

EMO Hannover is the world's leading trade fair for production technology. It is the only trade fair worldwide to cover the entire breadth and depth of manufacturing technology. No other event succeeds in bringing together so many high-profile experts in one place as the world's leading metalworking trade fair. All production areas, from machine tools and production systems for cutting and forming which form the heart of machining, precision tools, accessories and controller technology, to system elements and components for automated manufacturing are represented at EMO Hannover. This is what makes EMO so attractive and draws the whole spectrum of user industries to Hannover.
