

# Bazaar Berlin

06.11.2024 - 10.11.2024 | Berlin, Germany

## **Unique items from around the world**

For 60 years Bazaar Berlin (former Import Shop Berlin) has successfully presented a unique concept by delivering a global market for local products. Each year in November, arts and crafts retailers and manufacturers meet in Berlin with enthusiastic buyers of high-quality ethnic and natural products. This trade fair is truly unique in terms of size, overall experience, atmosphere and success. It offers small and medium sized manufacturers a competitive marketing platform for their products. Exhibitors at the Bazaar Berlin profit from affordable stand prices, an excellent service and around 40,000 visitors, including trade visitors and private buyers. This rather unusual constellation for German trade fairs opens the door to direct sales during the exhibition days, which is one of the many reasons for its popularity. As Bazaar Berlin takes place in November, just before Christmas, it is an attractive place for many local buyers seeking Christmas presents.
