Tube

03.04.2028 - 07.04.2028 | Germany, Duesseldorf

Join the best – THE #1 IN TUBES

Tube Duesseldorf is the world's leading international trade fair for the tube and pipe industry. It is the most important meeting point for the experts, specialists, innovators and global market leaders of the industry. Whether the latest technologies or applications, the most modern machinery or plant for the manufacturing and processing of tubes; special steel solutions or light pipes made of composite or plastic materials, they are all presented at the Tube. The trade fair provides professional visitors coming from around the world with extensive information on the tube technology every two years. Tube is held parallel to wire, the world’s leading trade fair for the wire and cable industry.

Categories

Raw materials, tubes and accessories

- Tubes, ferrous and alloys
- Stainless steel (rustproof)
- Tubes, non-ferrous metal and alloys
- Tubes, plastic and composite
- Tubes, mineral raw materials
- Tubes made from various manufacturing and processing methods (welded, cold and hot drawn, pressed)
- Conduits
- Construction tubes
- Tube accessories

Tube manufacturing machinery

- Casting
- Rolling, drawing, extruding
- Welding, soldering
- Heat treatment
- Tube processing equipment
- Duct winding machines

Rebuilt and reconditioned machinery

- Casting and forging
- Drawing, extruding, rolling
- Welding
- Surface- and heat treatment equipment
- Tube processing and finishing equipment

- Materials handling
- Measuring and control technology

Process technology tools and auxiliaries

- Continuous casting
- Pressing, extruding (dies, extrusion dies, arbors)
- Drawing (dies)
- Dies
- Rolling
- Welding, soldering (electrodes, solders)
- Cutting, deburring (saw blades, polishing wheels etc.)
- Auxiliary and operating materials
- Reconditioning
- Minimum lubrication for tube extrusion
- Other

Measuring and control technology

- Gauges
- Measuring systems
- Sensors and controllers (temperature, moisture, flow rate)
- Automatic control equipment

Testing

- Testing of raw materials
- Non-destructive testing of finished products
- Destructive testing of finished products

Specialist areas

- Plant engineering and construction
- Logistics
- Safety technology
- Environmental protection
- Restoration and reparation
- Grinding machines
- Sawblade grinding machines
- HF-electron tubes
- Data technology / production control
- Consulting and services
- Research and training
- Trade literature, publications
- Associations

Trading, stockists of tubes of

- Ferrous metal
- Non-ferrous metal and alloys
- Plastic and composite materials

- Fiber glass
- Glass
- Ceramic
- Concrete
- Fibre-cement
- Other

Pipeline and OCTG technology

- Pipeline construction
- Maintenance
- Surface coating
- Corrosion prevention systems
- Reconditioning of plant and equipment
- Pipe laying systems
- Welding equipment ERW, Spiral, Seam, MIG TIG
- Fittings
- Construction
- Planning, design, service

Profiles and machinery

- Profiles
- Machinery

Plastic Tube Forum

- Competence area waste disposal
- Competence area utility supply
- Competence area building technology
- Competence area industrial tubes and pipes
- Raw material

Key Statistics

Exhibitors: 2,600 from 65 countries (together with wire)

Trade Visitors: N/A

Special Info

Cycle of event: Every two years

Held parallel to wire, the world's leading international wire and cable trade fair
