MAKE YOUR BUSINESS FLOW - INTERNATIONAL VALVE TRADE FAIR & CONFERENCE

With the VALVE WORLD EXPO and the VALVE WORLD CONFERENCE, Messe Duesseldorf hosts the world's most important trade fair for the valve technology, piping and flow control professionals. At the VALVE WORLD EXPO exhibitors from all over the world present the latest technologies, components and systems from the broad field of industrial valve technology. Trade visitors at VALVE WORLD EXPO are active predominantly in the on- and off-shore oil and gas industries, the (petro)chemical industries, (nuclear) power generation, food industries and shipbuilding. Further interest comes from materials and plant engineers, quality controllers, valve suppliers, wholesalers and retailers as well as supply manufacturers involved in casting, forging, industrial springs and seals. They all take advantage of the VALVE WORLD EXPO and VALVE WORLD CONFERENCE to brush up on the global range of products and services as well as to discuss the latest technical trends.
