

THERMPROCESS

21.06.2027 - 25.06.2027 | Germany, Duesseldorf

International Trade Fair and Symposium for Thermo Process Technology

THERMPROCESS is one of the world's four leading metals and metalworking trade fairs taking place parallel every three years in Duesseldorf: GIFA (International Foundry Trade Fair), METEC (International Metallurgical Technology Trade Fair), THERMPROCESS (International Trade Fair for Thermo Process Technology) and NEWCAST (International Castings Trade Fair). Top-class congresses and forums complement all these events.

THERMPROCESS is the world's leading forum for companies in the field of thermal process technology. Renowned industry manufacturers and many small and medium-sized specialist companies are here, demonstrating technological advancements in all areas of thermal process technology as well as the construction of plants, machinery, components and engineering services.

Categories

Industrial furnaces, industrial heat treatment plants and thermal processes for

- Precious metals
- Ores
- Ferrites
- Glass, enamel
- Hard metals
- Ceramics (industrial furnaces)
- Non-ferrous metals
- Steel and iron
- Harmful substances

Equipment for special use

- Cooling (special use)
- Laboratory equipment
- Purification
- Quenching equipment
- Heat-transfer plants
- Chimney technology

Components, equipment and other supplies

- Fittings
- Heating (components)
- Handling and transmission technology

- Gas generation (inert and reaction gas, regeneration included)
- Furnace engineering materials
- Measuring instruments and components
- Controlling and automatization
- Process-material
- Test technology
- Pumps, blowers and fans
- Molten metal processing equipment
- Heat-insulating and refractory

Occupational safety and ergonomic

Consulting, design, service and engineering

Trade associations, specialised publisher and magazines

Training and education

Key Statistics

Exhibitors: 2,200 from 56 countries (GIFA, METEC, THERMPROCESS and NEWCAST together)

Trade Visitors: 63,300 from 114 countries (GIFA, METEC, THERMPROCESS and NEWCAST together)

Special Info

Cycle of event: Every three years

Held together with [GIFA](#), [METEC](#) and [NEWCAST](#)
