The leading exhibition in the green sector

GaLaBau is the Europe's most comprehensive show for the design, construction and maintenance of urban, open and green spaces. GaLaBau is ideally enhanced by the two segments PLAYGROUND and golf course, whose products and services are intended for operators of leisure parks, camping sites and nursery schools, and for those responsible for the construction, maintenance and management of golf courses. GaLaBau is a must event for national and international experts and decision-makers from the segments of earth moving, transport and road making, garden, landscape and open space contractors, landscape gardeners and architects, federal, state and local authorities etc. The comprehensive, clearly structured specialist product range takes full account of the trade visitors' requirements.
