

Chillventa

08.10.2024 - 10.10.2024 | Germany, Nuremberg

International Exhibition Refrigeration | AC & Ventilation | Heat Pumps

Chillventa is the international trade fair for refrigeration, air conditioning, ventilation and heat pumps. With a strong backing of the international refrigeration industry, Chillventa has achieved to become the most important international exhibition for refrigeration technology. Chillventa is also a decisive forum for product and system development in the air conditioning, ventilation and heat pump segments. Its comprehensive range of products with innovations, components, systems and applications presents a cross-section of the whole industry. Service providers for the refrigeration and air conditioning sector supplement the spectrum of products and provide support on aspects such as the economical and efficient use of energy. The attractive supporting programme "Chillventa Congressing" covers the current and hot international topics of these sectors.

Categories

Components for refrigeration, air conditioning, ventilation and heat pumps

- Heat exchangers
- Compressors
- Construction components

Instrumentation, control and automation (ICA)

- Automation systems
- BUS systems
- Remote data transmission
- Monitoring systems
- Speed control and frequency converters
- Sensors
- Gas detection systems
- Switch cabinets

Fluids

- Refrigerants
- Secondary refrigerants
- Lubricants
- Technical gases

Insulation (application areas)

- Cold insulation

- Heat insulation
- Acoustic insulation
- Fire insulation
- Component insulation

Accessories / tools

- Filling / evacuation stations
- Disposal / recycling
- Containers for refrigerants and gases
- Leak detectors
- Measuring devices
- Installation material
- Vibration damping
- Water treatment
- Tools & equipment

Key Statistics

Exhibitors: 844 from 43 countries

Trade Visitors: 30,773

Special Info

Cycle of event: Every two years
