

EuroBLECH

22.10.2024 - 25.10.2024 | Germany, Hannover

International Sheet Metal Working Technology Exhibition

The sheet metal working industry is currently facing an economic environment of diverse regional market situations within our globalized world. There is a demand for an ever-growing choice of products which needs to be met by using innovative and flexible fabrication processes. In this challenging but highly promising environment, it is essential for companies in the sheet metal working industry to invest in efficient technologies, intelligent process chains and tailor-made machines and systems as well as building international business contacts.

As the world's leading exhibition and business barometer for the sheet metal working industry, EuroBLECH offers its audience a comprehensive idea of the prevailing technological trends. Clearly structured and subdivided into 15 technology sectors, EuroBLECH shows the entire sheet metal working technology chain: sheet metal, semi-finished and finished products, handling, separation, forming, flexible sheet metal working, joining, welding and surface treatment, processing of hybrid structures, tools, quality control, CAD/CAM systems and R&D. For companies ready to invest in the latest machines, tools and systems for sheet metal working, EuroBLECH is the first point of contact when it comes to sourcing the right equipment. For suppliers and manufacturers of sheet metal working technology, the exhibition is the central hub for business on a global scale.

Categories

Sheet metal, tube, sections (ferrous and non-ferrous)

Finished products, components, assemblies

Handling

Separation, cutting

Forming

Flexible sheet metal working

Tube / section processing

Machine elements

Processing of sheet metal / plastic hybrid structures

Joining, welding, fastening

Surface treatment of sheet metal

Tools, dies

Controlling, regulating, measuring, testing

Quality assurance

CAD / CAM systems, data processing

Factory and warehouse equipment

Environment protection, recycling

Safety at work

Research and development

Key Statistics

Exhibitors: 1,300 from 39 countries

Trade Visitors: 38,076

Special Info

Cycle of event: Every two years
