

B2B-meetings

We assist our trade visitors to meet the right people. B2B-meetings are pre-arranged, targeted appointments dedicated to get buyers and exhibitors to meet. The B2B-meetings are an ideal way for small and medium-sized businesses, to build connections and to find new clients and potential cooperation partners. Our B2B-meetings help you to maximize the impact of your participation and increase your chances of making high-quality business connections.

By contacting us well in advance before the trade fair, we have enough time to prepare for the B2B-meetings. Our aim is to find the exhibiting companies that not only correspond to your interests, but also have interest in business with your company. The mutual interest of both parties provides the high efficiency of the time spent for the meetings for all participants. Should you need any support during the meetings, we are happy to accompany you!
